Professional Summary

I am a passionate and results-oriented IT professional with a strong foundation in software development, programming, and problem-solving. I am a graduate of Tshwane University of Technology with hands-on experience in web application development. Seeking an entry-level role to apply my technical expertise, contribute to innovative projects, and grow within the IT industry.

Technical Skills

- Programming Languages & Frameworks: C++, PHP, JavaScript, React.js, Node.js, Laravel, SQL, HTML, CSS, Tailwind CSS
- Database Management: MySQL, SQL Server
- Tools & Technologies: Git, GitHub, Microsoft Office Suite, Agile methodologies
- Specialized Skills: Full-stack development, UI/UX design, API Development (RESTful APIs), Cloud Computing Fundamentals

Education

Tshwane University of Technology

National Diploma in Information Technology: Software Development (2024)

Key Modules:

- Development Software, Technical Programming, Information Systems, Computing Fundamentals
- System Software, Industry Exposure

Inkunzi Secondary School

NSC (2017)

Professional Experience

Digital Xpert (Oct 2023 - March 2025)

Software Developer Intern

- Delivered effective application support by troubleshooting client issues and resolving support tickets promptly.
- Designed and maintained web applications using PHP, Laravel, and MySQL.
- Enhanced UI/UX by integrating front-end designs via Tailwind CSS, HTML, and JavaScript.
- Conducted robust testing of web applications to identify and resolve bugs, ensuring smooth deployments.
- Monitored system performance and conducted integrity checks, maintaining optimal functionality.
- Authored unit tests, reviewed code, and adhered to industry best practices.

Projects

Leave Management System

- Developed a web-based system for automating leave requests and approvals.
- Implemented features including user authentication, leave tracking, and an admin dashboard.
- Designed a responsive UI using Tailwind CSS and improved efficiency through extensive testing.

Recruitment Management System (In Progress)

- Full-stack system to streamline the hiring process using Laravel and React.js.
- Features include job postings, user authentication, and applicant tracking.

Core Competencies

- Analytical and problem-solving skills
- Team collaboration and mentorship experience
- Adaptability and effective communication
- Passion for system development and innovative projects
